

INNOVATE 2010: Vietnam & Taiwan

Innovation, Technology & Globalization Conference

Timeline

Late September: Online Application Open

November 30: EXTENDED APPLICATION DEADLINE

December 5: Notification of US Delegates

December 15: Application deadline for delegates from all international institutions

March 12 – 21, 2010: INNOVATE Conference held in Ho Chi Minh City, Vietnam & Taipei, Taiwan

Join engineering, science, and technical students from the US, Japan, Singapore, Vietnam, and Taiwan as we explore the issues surrounding innovation, globalization, and technology in Vietnam and Taiwan! INNOVATE will prepare you to become tomorrow's technical leaders through ten days of hands-on international experience that will include company site visits, meetings with key business, government, academic and policy leaders, and related cultural tours.

Vietnam and Taiwan provide rich case studies on how technology can serve as an economic catalyst. Vietnam has an ambitious goal of becoming a developed economy by 2020, and Ho Chi Minh City is an ideal venue to observe the challenges and opportunities of facing this nation. Taiwan's pursuit of an open, efficient and internationally competitive economy has contributed greatly to the island's remarkable economic growth in highly advanced and diversified industries but it faces unique challenges in developing new areas of expertise that will support further development and keep it at the cutting-edge. Join us today for this innovative program that highlights the unique role Asia plays in the global economy & technological innovation!

Eligibility

- Open to engineering, science, or technical students
- Open to juniors, seniors or graduate students
- Open to US Participating Schools or IAESTE
- Open to ANY International University Student

INNOVATE Company Visit to II-VI an Optics Manufacturer in Vietnam

INNOVATE 2009 delegates at the National Cheng Kung University in Taiwan

INNOVATE receives partial support from an NSF-PIRE grant (OISE-0530220) and is organized by Rice University, the University of Tulsa, and the University of Pittsburgh.
